

CURRICULUM VITAE

Saeed Nasrollanejad

Born in: Gorgan, Iran, 1967

Citizenship: Iran permanent resident.

Status: Married, 2 child.

Mailing Address:

Plant Protection Dept.,

Faculty of crop science,

Gorgan University of Agricultural Sciences and Natural Resources,

Gorgan, IRAN. 49138-15739 postal box.

Phone: 01734426082

Fax: 01734420981

Email: snasrollanejad@yahoo.com , snasrollahnejad@gau.ac.ir

Education:

B.Sc. (Plant Protection, Shiraz University,Iran, 1987-1991.

M.Sc. (Plant Pathology, Ahvaz University, Ahvaz,Iran, 1993-1995.

Ph.D. (Plant Protection , Timiryazof University, Moscow, Russian, 1997-2001)

(Secured *First rank* in entrance examination for Ph.D. candidate to study overseas in year 1996)

Languages:

Persian, English and Russian.

Employment:

Faculty staff of Gorgan University of Agricultural Sciences and Natural Resources

Teaching in Takestan University (2000-2004)

Iranian Academy of Agricultural Science, (2004)

Research:

Plant viral disease, Molecular Genetic of Disease Resistance in Potato

Including BCMV, WSMV, MDMV, Verticillium, Fusarium Head blight,

Lab Experience:

Genomics including Gene Isolation and cloning, Electrophoresis, Tissue Culture, RT-PCR, DNA and RNA extraction, cDNA-AFLP, RACE, Quantitative Real-time PCR, Sequencing.

Software Experience:

Clustal x, Mega5, Vector NTI, Blast, BioEdit, Primer3,

Also, general knowledge on SAS, Excel

Teaching:

Virology

Plant Biotechnology

Microbiology

Principle of Plant Pathology

Advanced Plant Pathology

Mycology

Societies:

Iranian Phytopathology society

Iranian Genetic Society

Iranian Virology Society

Participation and presentation:

7th Iranian Plant Protection. September, 2002. Karaj, IRAN.

1st International Wheat Congress, December, 2002. Tehran, IRAN.

8th Iranian Genetics congress. May, 2003. Tehran, IRAN (Oral presentation).

3rd National Biotechnology congress, September, 2003. Mashhad, IRAN.

Selected Publication (Full Papers):

Zakeri, A., Mostafavi Neishaburi, F. S., & Nasrollahnejad, S .(2014). Serological and molecular detection of two mosaic borne viruses in maize fields of Golestan province. *New Genetics*, 2. 244-239.

Hatamzadeh, S., Rahnama, K., Fotouhifar, K. B., Nasrollahnejad, S., Hemmati, K., & White, J. (2019). First report of Preussia africana for Iranian mycoflora. *Rostaniha*, 20(1), 76-79.

Sanei, S. J., & Nasrollahnejad, S. (1995). Aggressiveness of some Verticillium dahliae isolates to susceptible and resistant cultivars of cotton. *Journal of Agricultural Sciences*, ??

Neamati, N., Mohammad Janloo, H., Kordi, M. M., Ghajari, A. G., Nasrollahnejad, S., & Mohajer Abbasi, A. (1998). Selection of prominent and commercial cultivars tolerant to Verticillium wilt of cottonStudy. ??

Tazike, A. A., Nasrollahnejad, S., & Mirghasemi, S. J. (1999). Study of carrión cotton varieties.

Nasrollahnejad, S., Janloo, H., Tazike, A. A., Ghajari, A., Miri, A. A., Adhami Mojarrad, M., & Trbati, L. (1999). Study the changes commercial and promising cotton varieties tolerant to Verticillium wilt.

Hoseinninejad, Z., Zahmatkesh, F., Sarvari, M. T., & Nasrollahnejad, S. (2000). Comparison of quantitative and qualitative characteristics of mutant highlight lines cotton in environmental conditions.

Hoseininejad, Z., Vafaee Tabar, M. R., Talat, F., Alisha, O., Kakhki, A., Hadi Aghdam, R., ... & Nasrollahnejad, S. (2001). Investigation on cotton hybrid seed production.

Romanenko, N. D., Nasrollanejad, S., & Beloshapkina, O. O. (2004). The revealing of complex virus and nematode infections and estimation of their harm on potato in conditions of Moscow and Moscow-region. *Parasitic nematodes of plants and insects*, 171-313.

Nasrollanejad, S., Mahmoodjanloo, H., & Rahnama, K. (2007). Study on susceptible and resistance of commercial and advanced cotton cultivars to Verticillium wilt. *Journal of Agricultural Sciences and Natural Resources*, 13(6), 76-83

Sistani, F., Ramezanpour, S. S., & Nasrollanejad, S. (2009). Field evaluation of different fungicides application to control olive leaf spot. *Australian Journal of Basic and Applied Sciences*, 3(4), 3341-3345.

Fallah, T., & Nasrollanejad, S. (2009). Detection and distribution of PNRSV on stone fruits in Golestan provinces. *Journal of Plant Production*, 16, 88-98.

Nasrollanejad, S., & Ghasemnezhad, A. (2009). Detection and identification causal agent of stone fruit brown rot in northern Iran. *Aust. J. Basic Appl. Sci*, 3(3), 2939-2943.

Hosseinzadeh, H., Nasrollanejad, S., Dordiani, Z., & Jamshidnezhad, V. (2012). Serological detection of sharka quarantine disease (plum pox virus) on stone fruit trees in golestan province. *Archives of Phytopathology and Plant Protection*, 45(16), 1879-1883.

Nasrollanejad, S., Ziyarat, M. A., & Fakhrabad, F. Z. (2012). The determination of Citrus tristeza virus strains in the North of Iran. *International Journal of Agriculture and Crop Sciences (IJACS)*, 4(22), 1714-1719.

Nasrollanejad, S., & Zinatifakhrabad, F. (2012). Detection potato leaf roll virus in imported potato tubers by class elite and super elite A and its distribution at

Fereydan, Isfahan Province. *International Journal of Agriculture and Crop Sciences (IJACS)*, 4(15), 1101-1106.

Ahmadihah, A., Nasrollanejad, S., & Alishah, O. (2012). Quantitative studies for investigating variation and its effect on heterosis of rice. *International Journal of Plant Production*, 2(4), 297-308.

Fakhrabad, F. Z., Nasrollanejad, S., Ahmadihah, A., & Taghinasab, M. (2012). Sequencing of three isolates and prevalence of Potato virus Y in Tobacco fields of Golestan province, and phylogenetic comparison of the Iranian and world isolates of the virus. *Iranian Journal of Plant Pathology*, 48(3). 141-142

Hosseinzadeh, H., Nasrollanejad, S., & Khateri, H. (2012). First report of cucumber mosaic virus subgroups i and ii on soybean, pea, and eggplant in iran. *Acta virologica*, 56(2), 145.

Fakhrabad, F., Ahmadihah, A., & Nasrollahnejad, S. (2012). Identification and detection of Potato virus Y strains by molecular methods in tobacco fields of North Iran. *International Research Journal of Applied and Basic Sciences*, 3(7), 1422-1428.

Hosseini, S. A. N., Nasrolanezhad, S., Dordipour, E., & Ghasemnezhad, A. (2013). Effects of calcium dinitrate, potassium nitrate and salicylic acid on the nicotine content of tobacco leaves infected by PVY. *International Journal of AgriScience*, 3(1), 37-46.

Zakeri A., Mostafavi Neishaburi F.S. & Nasrollahnejad S. (2014). Serological and molecular detection of two mosaic borne viruses in maize fields of golestan province. *Modern Genetics Journal*, 9(2), 239-244

Karimian, F., Nasrollahnejad, S., Rahnama, K., Taghinasab, M., & Ahmadihah, A. (2014). Assessment of mycelial compatibility of sclerotinia sclerotiorum isolates, causal agent of canola stem white rot and evaluation of their genetic diversity using rapd marker. *Modern Genetics Journal*, 9(36), 21-30

Gharekhani, M., Salari, M., Nasrollanejad, S., Panjehkeh, N., & Sabbagh, S. K. (2014). Examine of the Sensitivity and Total Phenol Changes of Stone Fruit Different Cultivars to Monilia laxa Pathogenic. *Journal of Plant Protection*, 28(2), 164-170.

Ghorbani, F., Panjehkeh, N., Nasrollanejad, S., Salari, M., & Sabagh, S. K. (2014). Inhibitory effect of essential oils of Eucalyptus sp. and Zataria multiflora on fungal growth of Macrophomina phaseolina. *Archives of Phytopathology and Plant Protection*, 47(19), 2410-2413.

Neishaburi, F. M., Masumi, M., Nasrollanejad, S., Rahpeymasarvestani, N., & Izadpanah, K. (2015). Analyses of complete nucleotide sequence of Iranian isolate of Maize dwarf mosaic virus (MDMV) and notes on the origin and evolution of MDMV. *Iranian Journal of Plant Pathology*, 51(1), 70-81

Gonbadi, A., Nasrollanejad, S., Darzi, M. T., & Fakhrabad, F. Z. (2015). Molecular study on isolate of Zucchini yellow mosaic virus based on coat protein genome alignment in Golestan province. *International Journal of AgriScience*, 5(1), 6-11.

Nasrollanejad, S., Mohamadi, Z., Davarian, T., Alishah, O., & Taheri, A. (2015). Interaction between nematode (*meloidogyne incognita*) and *verticillium dahliae* in cotton plant. *Iranian Journal of Cotton Researches*, 3, 1-14

Ahsani, H., Nasrollahnejad, S., Rahimian, H., Zohour, E., & Taghi Nasab, M. (2015). Study of phenotypic characteristics and genetic diversity of *Pseudomonas syringae* pv. *Syringae*, the causal agent of almond bacterial canker in Khorasan Razavi province using BOX-PCR. *Research in Plant Patholog*, 3, 1-14

Nasrollanejad, S., & Shameli, S. (2015). Serological detection and host rang of Tobacco Streak Ilarvirus in Golestan province. *Journal of Plant Production Research*, 22(1), 59-71.

Nasrollahnejad, S. (2016). Detection and identification of Potato virus Y strains in the main growing regions of solanaceous plants in Golestan province. *Journal of Applied Researches in Plant Protection*, 5(2), 1-12

Shahiri Tabarestani, M., Rahnama, K., Jahanshahi, M., Nasrollahnejad, S., & Fatemi, M. H. (2016). Identification of volatile organic compounds of some

Trichoderma species using static headspace gas chromatography-mass spectrometry. *Mycologia Iranica*, 3(1), 47-55.
